

Glue Flaps

Do not put the glue flaps in the file or on the films.

Top Opening

The dimensions are identical to the sleeve with a side opening.

Only the orientation of the design on the front and on the back are different. See diagram below:

Key

- Positioning of the central die cut. Do not include this circle in your design. (Do not leave a white area in your files or on your films)
- Area including the compulsory 8 mm bleed
- Area for glue flaps
